RE: PRODUCT ALLOCATION UPDATE

Dear Valued Customer,

To provide a more consistent supply of products, we are managing the allocations differently in July. The goal is to provide more equitable access to CAPS 503B products for all customers .

- Allocations may be increased the week of June 26th on some product codes to enable additional orders prior to the 4th of July holiday.
- Allocations will be reset on July 1st at a lower starting point, then increased throughout the month with the goal of supporting allocation increases.

CAPSLink will remain the most current and updated source of information on available inventory by product code.

We apologize for this service interruption and are working diligently to return to a fully reliable supply of CAPS 503B compounded sterile preparations. For order-related questions, please contact CAPS Customer Service at 844-903-6414 or email customerservice@capspharmacy.com.

Sincerely,
CAPS Customer Service
