

CAPSLink 3.1.4 Release Notes

MFA (Multi-factor Authentication)

- MFA will now allow users to use the same email address across multiple user accounts.

Audit Trail

- For the Patient Audit Trail filters have been added for First Name, Last Name, and MRN

Audit Trail

1

Patient Profile

- Fixed a bug where the Bed and Patient Name information would be missing on initial load up of Order entry screen.
- Fixed the Order Summary Report to display the same patient ID as shown in the Patient Profile.
