

CAPSLink 3.1.2 Release Notes

Patient Profile

- Fixed an issue where information was not saved to the Patient Profile when the patient's name exceeded 50 characters

Group Sign On

- Fixed an issue where the 503B cart would not clear of contents when switching between customers
- Fixed an issue where the 503B Order Confirmation would display the incorrect 'Ship To' customer when switching between customers

503B Product Ordering

- Removed an error message which would occur When the 503B Cart is empty, and the user attempts to add multiple items to the cart using the 'Add All to Cart' Button
